

TABLECLOTH

On a marketplace, the product image is one of your most valuable marketing tools. When customers browse Amazon.in pages, often the image draws them to consider your product. In addition, with so many choices available for online purchases, a well-formed image can set your product apart from the others. Poor quality images turn customers away. Use your product images to communicate the selling points and features of your products, to inform and interest customers, and reinforce your brand. Listings with missing or non-compliant images are suppressed from the site, thereby getting low customer traffic and conversion rates, resulting in missed sales opportunities.

- The product must fill 85% or more of the image.
